Article 2.132-2.134 of the Texas Code of Criminal Procedure (CCP) requires the annual reporting to the local governing body of data collected on motor vehicle stops in which a ticket, citation, or warning was issued and to arrests made as a result of those stops, in addition to data collection and reporting requirements. (Source: 2018 Report Executive Summary)										
Is Racial Profiling Reporting Required On Motor Vehicle Stops Only? Seeming So!										
What about other encounters such as a person walking down the street, etc?										
Given the higher stop rate of blacks even though blacks have a much lower population rate than whites:										
Is this problematic for Black Leaders including Black Church Leaders?										
Is this problematic for White Leaders including White Church Leaders?										
Is this a function of bad policing, of the Black Culture, or a combination of the two or something else?
