QUESTIONS REGARDING PROPORTIONALITY OF THE NUMBERS

Do the city government personnel think:

1. Those numbers are out of balance?

2. They have a responsibility to determine why the numbers are as they are?

3. They have a responsibility to identify solutions to improve balance?

4. They have a responsibility to oversee solutions implementation?

5. They have a responsibility to communicate/coordinate the above with the public?

6. They have a responsibility to prioritize use of tax dollars for all the above?
